Please be advised that photographs and videos may be taken at the meeting for use:

- On the conference website and on conference social media pages.
- In the press, including marketing materials and publications distributed to the public.

By entering the meeting, you consent to the use of your image and likeness for the purposes mentioned above.

REGISTRATION

CATEGORY	MEMBER	NON-MEMBER
Physician	\$349	\$649
Resident	\$49	\$99
Student	\$25	\$49
Industry	N/A	\$849

Registrations received September 25, 2026, or later, including onsite, will include an additional \$50 processing fee.

CANCELLATION POLICY

- 100% refund, less \$25 processing fee, if cancelled by September 1, 2026
- 50% refund, less \$25 processing fee, if cancelled by September 26, 2026
- No refunds for cancellations after September 26, 2026

INQUIRIES

Phone: 337.628.2777
Email: info@aspsmembers.org
Website: aspsmembers.org

NON-SOLICITATION POLICY

To preserve the professional integrity of the ASPS Annual Conference and protect the investment of our valued exhibitors and sponsors, solicitation and sales activities are strictly limited to registered and paid exhibitors within their assigned exhibit spaces.

Sales or promotional activities—including distribution of marketing materials, product demonstrations, or business solicitation—are not permitted by any individuals or organizations who are not officially contracted exhibitors. This policy applies to:

- Registered physician attendees engaging in sales or business promotion on the exhibit floor.
- Sponsors or companies registered as attendees attempting to market, demonstrate, or sell products or services to attendees or exhibitors without securing an exhibit booth.
- Any unauthorized distribution of materials in common areas, educational sessions, or other conference spaces.

ASPS reserves the right to take appropriate action against violators of this policy, which may include removal from the event without refund, loss of future attendance privileges, and other measures deemed necessary to maintain a fair and compliant environment.

NON-DISCRIMINATION POLICY

ASPS is committed to providing an inclusive and accessible environment for all participants in our continuing education activities. We adhere to a nondiscrimination policy that ensures equal opportunity and prohibits discrimination on the basis of race, color, religion, sex, national origin, disability, age, sexual orientation, gender identity, or any other characteristic protected by applicable law.

In alignment with this commitment, we strive to make our continuing education activities accessible to participants with disabilities, including but not limited to those with physical, visual, and/or hearing impairments. Our goal is to create an environment that fosters learning and participation for everyone.

To facilitate accessibility, we offer reasonable accommodation upon request. Participants with disabilities are encouraged to contact us in advance to discuss specific needs, and we will make every effort to provide appropriate accommodation to ensure their full participation in our educational programs. If you require accommodations or have specific accessibility concerns, please contact info@aspsmembers.org at least two weeks prior to the conference. We value diversity and inclusion, and we are dedicated to addressing the unique needs of all participants to promote an enriching and accessible learning experience for everyone involved in the ASPS continuing education activities.

ACCREDITATION

ASPS is accredited by the Council on Podiatric Medical Education as a provider of continuing education in podiatric medicine.

ASPS has accredited this activity for a maximum of 14.0 continuing education contact hours (CECH).

EDUCATIONAL MISSION STATEMENT

The educational mission of the American Society of Podiatric Surgeons is to purposefully advance the understanding of technology, techniques, and procedures related to podiatric surgery with a goal to improve provider knowledge and patient outcomes by offering the highest quality of didactic and clinical learning experiences for members and non-members and shall include a variety of instructional methods to improve patient care, treatment protocols, and practice efficiency. Educational programs may include interactive adult learning methods and principles utilizing didactic presentations, panel discussions, debates, case studies, question and answer, round table discussions, videos, hands-on workshops, and cadaver labs to achieve a well-rounded portfolio of educational opportunities.

TARGET AUDIENCE

The intended audience of the Annual ASPS Surgical Conference is Podiatrists, Podiatric Residents, and Podiatric Students, and health professionals with an interest in advancing their knowledge of foot and ankle surgery.

LEARNING OBJECTIVES

- Utilize and explain the benefits of surgical application in everyday practice.
- Assess ethical and proper use of foot and ankle surgery as a means of patient improvement.
- Discuss the history of surgical intervention and review training and techniques for daily practice.

LEARNING METHODS

- Didactic Lectures
- Hands-On Workshops
- Panel Discussions
- Case Studies/Case-Based Presentations
- Point/Counterpoint Discussions

CERTIFICATE INSTRUCTIONS

Physical (paper) accreditation certificates will not be issued at this event. Participants will receive an email within ten (10) business days after the meeting with a link to complete the required evaluation. CECH certificates will be emailed immediately upon completion of the evaluation.

Each registrant is responsible for reporting attendance to all appropriate boards and agencies requiring continuing education. Credits may be registered with state boards by providing a copy of your CECH certificate.

AGENDA

REGISTRATION | Gibson Foyer | Thursday, October 22 >> 4:30pm - 6:30pm
Friday, October 23 >> 6:30am - 5:00pm
Saturday, October 24 >> 6:30am - 1:30pm

FRIDAY, OCTOBER 23

All sessions and meal symposia are held in Gibson C

EXHIBITS OPEN 9:30am – 3:30pm | Gibson Foyer

BREAKFAST

7:00am - 8:00am

7:15am - 7:45am | **Breakfast Symposium by Cutting Edge Lasers Technologies | Beyond the Incision - Integrating MLS Laser Therapy into the Surgical Recovery Pathway [NON- CECH]**
Melissa Lockwood, DPM

7:55AM - 8:00AM

WELCOME + OPENING REMARKS

Vilayvanh Saysoukha, DPM

REGENERATIVE MEDICINE

Moderator: Melissa Lockwood, DPM

8:00am - 8:10am

The State of Regenerative Medicine in Podiatry
Melissa Lockwood, DPM

8:10am - 8:30am

Integrating Shockwave into the Surgical Practice
Jay Spector, DPM

8:30am - 8:45am

Peptides and Biologic Adjuncts in Foot & Ankle Regenerative Care
Joanne Balkaran, DPM

8:45am - 9:00am

Orthobiologics and Tissue-Based Products in Podiatric Surgery
Joanne Balkaran, DPM

9:00am - 9:15am

Building a Regenerative Program in a Modern Podiatric Practice
Melissa Lockwood, DPM

9:15am - 9:30am

Real-World Integration: Case-Based Regenerative Decision Making
Melissa Lockwood, DPM & Joanne Balkaran, DPM

9:30am - 9:45am

Q&A/Panel Discussion

9:45AM - 10:15AM

NETWORKING BREAK + EXHIBITS

AGENDA

FRIDAY, OCTOBER 23

All sessions and meal symposia are held in Gibson C

SOFT TISSUE AND WOUND CARE

Moderator: Vilayvanh Saysoukha, DPM

- 10:15am - 10:30am **Surgical Management of Equinus Deformity**
Vilayvanh Saysoukha, DPM
- 10:30am - 10:45am **Tibialis Anterior Tendon Transfer to Manage Lateral Column Ulcers**
Collin Pehde, DPM
- 10:45am - 11:00am **Artificial Intelligence and Surgical Innovation in Limb Preservation: Transforming Prediction, Decision-Making, and Patient Outcomes**
Jean Archer, DPM
- 11:00am - 11:15am **Wound Care with Added HBO Therapy Principles**
Nicholas Butler, DPM
- 11:15am - 11:30am **Q&A/Panel Discussion**

BREAK: LUNCH + EXHIBITS
11:30am - 12:45pm

12:00pm - 12:45pm | **Lunch Symposium by Legally Mine | Safeguarding Wealth: Asset Protection & Tax Strategies [NON- CECH]**
Natalyn Lewis

SOFT TISSUE AND WOUND CARE

Moderator: Nicholas Butler, DPM

- 12:45pm - 1:00pm **From Foot Care to First Response**
Alton Johnson, DPM
- 1:00pm - 1:15pm **Augmenting Amputations with Skin Graft Substitutes**
Collin Pehde, DPM
- 1:15pm - 1:30pm **Beyond Tissue Removal: Precision Debridement for Limb Preservation**
Alton Johnson, DPM
- 1:30pm - 1:45pm **Cyclical Topical Oxygen Therapy Treatment of Venous Leg Wounds**
Christopher Japour, DPM
- 1:45pm - 2:00pm **Q&A/Panel Discussion**

AGENDA

FRIDAY, OCTOBER 23

All sessions and meal symposia are held in Gibson C; Workshop will be held in Gibson A.

WORKSHOP BY PARAGON 28, A ZIMMER BIOMET COMPANY

2:00pm - 4:00pm

MIS and ORIF Cadaver Lab [NON-CECH]

Proctored by: Andrew Belis, DPM

Participants will work with cadavers and sawbones to practice techniques for MIS Bunion Correction, Fibular Nailing, Lapidus Plating & MTP Plating.

DIABETIC FOOT AND LIMB SALVAGE

Moderator: Collin Pehde, DPM

2:00pm - 2:15pm

Surgical Management of the Patient With Diabetes

Danny Phan, DPM

2:15pm - 2:30pm

Surgical Management of Plantar Hallux and 1st Metatarsal Ulcers

Robert Sage, DPM

2:30pm - 2:45pm

Surgical Management of Midfoot Charcot Deformity

Collin Pehde, DPM

2:45pm - 3:00pm

Management of Fifth Ray Amputations

Vilayvanh Saysoukha, DPM

3:00pm - 3:15pm

Standardizing Podiatric Treatment Post Deep Vein Arterialization

Robert Sage, DPM

3:15pm - 3:30pm

Q&A/Panel Discussion

3:30PM - 4:00PM

NETWORKING BREAK + EXHIBITS

PEDIATRIC

Moderator: Christopher Japour, DPM

4:00pm - 4:15pm

International Club Foot Treatment

Nishu Vora, DPM

4:15pm - 4:30pm

Pediatric Flat Feet

Robert Sage, DPM

4:30pm - 4:45pm

A Sports Medicine Approach to Common Foot Injuries

Jay Spector, DPM

4:45pm - 5:00pm

Shockwave Therapy for Middle School and Adolescent Athletes

Jay Spector, DPM

5:00pm - 5:15pm

Q&A/Panel Discussion

American Board of Podiatric Medicine

abpm.org

The American Board of Podiatric Medicine (ABPM) is an organization offering a comprehensive board certification process in podiatric medicine and orthopedics. The Certificate of the American Board of Podiatric Medicine is a unique achievement, a step well beyond the mandatory education of the podiatrist or state requirements for licensure.

AOTI

aotinc.net

AOTI's multi-modality topical wound oxygen (TWO®) systems are clinically proven to heal chronic wounds. Our FDA-approved therapy provides proven, sustained healing delivering an 88% reduction in hospitalizations and 71% reduction in amputations over 12 months in DFU patients. In-home therapy supports greater compliance and access to therapy.

Auxano Medical, LLC

auxanomedical.net

Auxano® Medical offers breakthrough implant technology that enhances osseointegration. Designed using proprietary Auxano® morphology, the implants enhance fusion procedures for surgeons. Our products include the INTREPED® Intraosseous Fusion Device and ARKEO™ Wedge Fixation System.

Bioventus

bioventusglobal.com

Bioventus is an orthobiologics company delivering clinically proven, cost-effective products helping people heal quickly and safely. Its mission is to make a difference by helping patients resume and enjoy active lives. The orthobiologic products from Bioventus include offerings for osteoarthritis, surgical and non-surgical bone healing.

EXHIBITORS

Cutting Edge Laser Technologies

celasers.com

Cutting Edge Laser Technologies offers a full line of Therapy Lasers for the progressive practitioner. Learn how to integrate these technologies into your practice today.

Designs for Vision, Inc.

designsforvision.com

See the Visible Difference® with Designs for Vision's Panoramic Field Surgical Loupes & High-Definition Imaging (HDI) Headlights and in wound care with Designs for Vision's REVEAL FC - the only wearable that allows you to visualize autofluorescence skin wounds in real time.

EDGE Surgical

edgesurgical.com

Designs for Vision, Inc. manufactures Surgical Loupes and Surgical Headlights. EDGE Surgical's universal electronic depth gauge saves time and money and prevents infections by replacing reusable depth gauges. It uses a digital display to deliver consistent and accurate results each time. EDG® benefits entire organizations by relieving SPD cleaning duties, lowering risk management, and keeping ORs on schedule.

HyperFlex Medical, Inc.

hyperflexmedical.com

HyperFlex Medical develops innovative orthopedic technologies that preserve anatomy while improving patient outcomes. Its FDA-cleared HyperFlex® Bunion Correction System enables bone-preserving bunion correction through a minimally disruptive approach, helping redefine the standard of care without bone cuts or fusion.

Kerecis

kerecis.com

The intact Kerecis fish skin is being used to treat wounds, burns and other complex acute and chronic wounds including diabetic, venous, trauma, and surgical wounds. Thousands of patients of all incomes, cultures and races have benefited from treatment with Kerecis.

Our fish skin comes from wild Atlantic cod, caught from a sustainable fish stock in pristine Icelandic waters and processed using renewable energy.

KnovelCam Inc.

knovelcam.com

Our mission is to deliver mobile imaging solutions that enhance clinical workflows, eliminate infrastructure barriers, and help healthcare providers take control of diagnostics. We are committed to delivering modern imaging without compromising image quality, efficiency, or profitability.

Kuros Biosciences

kurosbio.com

Kuros Biosciences is on a mission to discover, develop and deliver innovative biologic technologies. With locations in the United States, Switzerland and the Netherlands, the company is listed on the SIX Swiss Exchange. The company's first commercial product, MagnetOs™, is a unique advanced bone graft that has already been used across four continents.

EXHIBITORS

Legally Mine

legallymine.com

Legally Mine helps medical professionals protect assets and prevent legal liabilities through proven, proactive legal structures. Our strategies also provide significant tax savings using little-known, court-tested benefits. By safeguarding wealth before problems arise, we help professionals reduce risk, stop lawsuits before they start, and strengthen long-term financial security.

LifeNet Health

lifenethealth.org

From debridement to closure, LifeNet Health offers a portfolio of regenerative wound solutions to help give your patients the healing advantage. Trusted by healthcare professionals worldwide, our solutions are designed to enhance patient outcomes by providing reliable, clinically proven solutions to close wounds with confidence.

OPED Medical, Inc.

opedmedical.com

OPED stands for innovative medical products, comprehensive therapy concepts and fresh impulses in medical technology. The personal care of our customers is as much a concern to us as the accompaniment of the patients until their complete recovery.

MIMEDX Group, Inc.

mimedx.org

MIMEDX is a transformational placental biologics company, developing and distributing placental tissue allografts with patent-protected, proprietary processes for multiple sectors of healthcare. MIMEDX has supplied over two million allografts, through both direct and consignment shipments. For additional information, please visit www.mimedx.com.

Paragon 28

paragon28.com

Paragon 28, a Zimmer Biomet company, is committed to advancing the science and outcomes of foot and ankle surgery through a highly specialized, surgeon-focused approach. Our mission is to alleviate pain and improve quality of life for patients around the world by delivering innovative, biomechanically driven solutions grounded in real-world clinical needs.

By integrating diverse surgical philosophies and insights from global thought leaders, we develop comprehensive systems that include next-generation implants, precision-engineered instrumentation, and fully integrated procedural platforms. Our solutions span the full spectrum of foot and ankle pathology—from subchondral lesions to complex reconstructions—providing targeted support across the forefoot, midfoot, and hindfoot.

Our evolving product portfolio is designed to enhance surgical efficiency, support reproducible outcomes, and ultimately improve patient care. Through close collaboration with healthcare professionals, we remain dedicated to shaping the future of foot and ankle orthopedics and helping patients worldwide live better, more active lives.

EXHIBITORS

PowerStep

powerstep.com

PowerStep® ProTech orthotics are clinically proven, podiatrist-designed insoles available exclusively through medical professionals. They offer a fast, drug-free solution to relieve and prevent foot, knee, and back pain, often in just one visit. Affordable and effective, ProTech® provides immediate relief with professional-grade support at a fraction of custom orthotics' cost.

Redi-Thotics

redi-thotics.com

Redi-Thotics offers quality medical grade over the counter orthotics for flexible flat feet to rigid flat feet, executive devices, and children. Visit our booth for FREE samples!

Redvive Health

redvivehealth.com

Redvive is a physician-guided photobiomodulation platform that integrates clinical-grade red light therapy into medical practices. Our systems support tissue healing, post-procedure recovery, and musculoskeletal performance through evidence-informed protocols and hands-on clinical integration. Built for physicians who want a scalable, revenue-generating modality, Redvive combines proprietary technology with structured onboarding, training, and ongoing clinical support.

Turner Imaging Systems

turnerxray.com

Turner Imaging Systems develops advanced solutions designed to expand access to point-of-care imaging. The SMART-C® mini C-arm delivers wireless, portable fluoroscopy with a compact design, supporting real-time imaging in clinics, operating rooms, and surgical settings. Turner is committed to innovative imaging technology that enhances workflow efficiency and patient care.

Urgo Medical

urgomedical.us

Urgo provides medical devices and products to hospitals, nursing homes and home health agencies – and the patients they treat. Our focused portfolio of products establishes proven protocols for the care and management of wounds, skin, and skin breakdown.

HELIOGEN®
FIBRILLAR COLLAGEN MATRIX

Surgical **wounds** need
framing to support healing.

We've got you covered.

HELIOGEN® is an advanced collagen
extracellular matrix that supports the
restoration of complex wounds.¹

PRODUCT ADVANTAGES

- ✓ Type I and type III bovine collagen extracellular matrix
- ✓ Hemostatic properties to help control minor bleeding^{2,3}
- ✓ May be applied dry or as a hydrated paste

Expect reliability from a fracture healing device. ¹⁻⁵

Provide healing support for patients with acute tibial diaphysis fractures.¹

Your fracture patients want to return to their active lives as quickly as possible. EXOGEN can help!

In a Level I trial, EXOGEN demonstrated 58 days faster healing in fresh tibial diaphysis fractures.¹

Indications and results for the Exogen™ ultrasound system in the management of non-union: a 59-case pilot study. *Orthop Traumatol Surg Res.* 2012;98(2):206-13. doi:10.1016/j.otsr.2011.10.011

***Indications for Use:** The EXOGEN Ultrasound Bone Healing System is indicated for the non-invasive treatment of established nonunions¹ excluding skull and vertebra. The EXOGEN device has also been reported as effective as an adjunctive non-invasive treatment of established nonunions in patients:

- With internal or external fracture fixation hardware present. EXOGEN cannot penetrate metal and therefore should not be applied directly over hardware.
- Undergoing treatment for infection at the fracture site. EXOGEN is not intended to treat the infection.
- Believed to have diminished bone quality. EXOGEN is not intended to treat diminished bone quality.

In addition, EXOGEN is indicated for accelerating the time to a healed fracture for fresh, closed, posteriorly displaced distal radius fractures and fresh, closed or Grade I open tibial diaphysis fractures in skeletally mature individuals when these fractures are orthopedically managed by closed reduction and cast immobilization.

There are no known contraindications for the EXOGEN device. Safety and effectiveness have not been established for individuals lacking skeletal maturity, pregnant or nursing women, patients with cardiac pacemakers, on fractures due to bone cancer, or on patients with poor blood circulation or clotting problems. Some patients may be sensitive to the ultrasound gel.

¹A nonunion is considered to be established when the fracture site shows no visibly progressive signs of healing.

Full prescribing information can be found in product labeling, at EXOGEN.com or by contacting customer service at 1-800-836-4080.
